PART I NEW APPROACHES IN THINKING ABOUT SOCIAL IMPACT ASSESSMENT

1 Current issues and trends in social impact assessment <i>Frank Vanclay and Ana Maria Esteves</i>	3
2 Understanding the organizational context <i>Deanna Kemp</i>	20
3 Looking beyond impact assessment to social sustainability <i>Ilse C. Aucamp, Stephan Woodborne, Jan J. Perold, Anita Bron and San-Marié Aucamp</i>	38
4 Community-based agreement making with land-connected peoples <i>Simon Nish and Sara Bice</i>	59
5 Theoretical foundations <i>Richard Howitt</i>	78
6 Ethical issues and dilemmas <i>James T. Baines and C. Nicholas Taylor</i>	96

PART II NEW ISSUES TO CONSIDER (OR OLD ISSUES TO CONSIDER BETTER)

7 Considering gender in social impact assessment <i>Kuntala Lahiri-Dutt and Nesar Ahmad</i>	117
8 Social impact assessment and Indigenous social development <i>Ciaran O'Faircheallaigh</i>	138
9 Disasters and climate change <i>Alison Cottrell and David King</i>	154

10	Land use change <i>Jacki Schirmer</i>	171
11	Development-induced community resettlement <i>Thayer Scudder</i>	186
12	Cumulative social impacts <i>Daniel M. Franks, David Brereton and Chris J. Moran</i>	202
13	Closure planning <i>Robin Evans</i>	221
14	Enhancing the benefits of projects through local procurement <i>Ana Maria Esteves, Mary-Anne Barclay, David Brereton and Daniel Samson</i>	233
PART III NEW METHODS AND TECHNIQUES		
15	Enhancing effectiveness through deliberative democracy <i>Janette Hartz-Karp and Jenny Pope</i>	253
16	Environmental conflict mediation <i>Rauno Sairinen</i>	273
17	Conflict-sensitive impact assessment <i>Paul Kapelus, Emily Richards and Hope Sherwin</i>	288
18	The World Bank's poverty and social impact analysis <i>Anis A. Dani and Sabine Beddies</i>	306
19	Utilizing a sustainable livelihoods approach to inform social impact assessment practice <i>Sheridan Coakes and Andreas Sadler</i>	323
20	Human impact assessment as a framework for integration <i>Tapani Kauppinen</i>	341
21	A human rights-based approach to social impact assessment <i>Gillian MacNaughton and Paul Hunt</i>	355
	<i>Index</i>	369

Figures

3.1	Interventions required for moving towards sustainable development	49
3.2	Levels of integration required to ensure SIA contributes to social sustainability	51
10.1	Average annual population change in Western Australian localities experiencing differing rates of plantation expansion	176
10.2	Average annual population change during 1991 to 2006 by type of locality in Western Australian localities experiencing differing rates of plantation expansion	177
10.3	Residential location of workers in traditional agriculture and tree plantation industries, Western Australia	181
12.1	A conceptual framework for cumulative impacts	206
12.2	The cumulative impact management hierarchy	211
16.1	Relationships between SIA, public participation and mediation	280
19.1	Theoretical approach to community sustainability	325
19.2	Sustainable livelihoods framework	326
19.3	Integrated framework for assessing community sensitivity and adaptive capacity to change	329
19.4	Elements of the five capital areas	330
19.5	Examples of indicators used to assess key capital areas in the development of the CSI	333
19.6	Community sensitivity indices for TRC towns	335
19.7	Capital vulnerability indices	335
19.8	Capital vulnerability indices for highly sensitive forestry-dependent communities in Victoria, Australia	337
20.1	Interrelations between SIA and HIA in human impact assessment	344
20.2	Mirror of impacts	346
20.3	Stages of a rapid impact assessment undertaken in the work of a municipal committee as part of the general decision-making process	351
